

Montana Marijuana Testing Requirements 2022 M-003 v5

† lab rule / method
Square brackets denote optional specification

| Panel | Products | Test Batch / Test Lot Size Limit | Sampling Requirements | | | Test Requirements | | Test after QA Fails‡ |
|--------------------|--|--|--|-----------------|--------|---|--|---|
| | | | | | | If source tested... | If source not tested... | |
| Biomass | Flower, Bud, Trim, Shake | 5lb (2270g) Multi-strain if same location and within 72h harvest and cured in same condition | grams in batch | sample weight | incred | no testing required | HB 701 Biomass Filth & FM, potency moisture [terpenes] pesticides mycotoxins microbial [metals] | <ul style="list-style-type: none"> moisture may be remediated twice other fails may be remediated once lots failing remediation must be destroyed |
| | | | ≤454 | 2.3g | 6 | | | |
| Preroll | Preroll | Remediation allowed | 454 - 908 | 4.5g | 6 | | | |
| | | | 908 - 1,362 | 6.8g | 6 | | | |
| | | | 1,362 - 1,816 | 9.1g | 6 | | | |
| | | | 1,816 - 2,270 | 11.3g | 8 | | | |
| Infused Edible | Candy, Gummy, Baked Goods, Gum, Infused sugar, Canna butter, Infused Honey, Tea, Coffee, Infused Beverage, Capsule, Pill, Tincture | Up to 5000 units of sale 1 batch per METRC tag Different flavors and colors require separate tests | lab methods require a minimum of 5 grams | | | HB 701 MIP potency microbial | ***** MIPs made from untested source material must be destroyed | remediation not allowed |
| | | | Servings / Lot | test samples | | | | |
| Infused Not Edible | Topical, Infused PPG, Infused Glycerin, Ointments, Spray, Suppository, Bath Salts | Remediation not allowed | 0-100 | 1 | | | ***** | |
| | | | 101-500 | 3 | | | | |
| | | | 501-2,500 | 7 | | | | |
| | | | 2,501-12,500 | 15 | | | | |
| | | | 12,501-62,500 | 20 | | | | |
| | | | 62,501.00-125,000 | 35 | | | | |
| Concentrate | Kief, Hash, Bubble Hash, Finger Hash, Shatter, Wax, Crumble, Honey-comb, Rosin, Distillate, RSO, Honey, BHO, Sugar, Hash Oil, Isolate, Live Resin, Butter, Terp Sauce, Moon Rock, Blastoff Joint | Composite sample allowed if same process lot Remediation allowed | grams in batch | sample weight | incred | any change in form requires HB 701 Concentrate | HB 701 Concentrate potency residual solvents [terpenes] pesticides mycotoxins microbial [metals] | <ul style="list-style-type: none"> residual solvents may be remediated twice other fails may be remediated once lots failing remediation must be destroyed |
| | | | ≤113 | 1.50g† | 2 | | | |
| | | | 113 - 227 | 1.50g† | 3 | | | |
| | | | 227 - 454 | 1.50g† | 5 | | | |
| | | | 454 - 907 | 2.00g | 8 | | | |
| | | | 908 - 2,268 | 3.75g | 15 | | | |
| | | | 2,268 - 6,803 | 5.50g | 22 | | | |
| | | | 6,803 - 22,676 | 8.25g | 33 | | | |
| | | | 22,676 - 45,350 | 10.75g | 43 | | | |
| | | | 45,350 - 113,376 | 13.25g | 53 | | | |
| | | | ≥ 113,376 | 20.00g | 80 | | | |
| | | | † lab policy does not allow >5000g lots | | | | | |
| Vape Cartridge | Cartridge | Composite sample allowed if same process lot | Cartridges / Lot | Test cartridges | | any change in form requires HB 701 Concentrate | | |
| | | | 0-100 | 3† | | | | |
| | | | 101-500 | 3 | | | | |
| | | | 501-2,500 | 7 | | | | |
| | | | 2,501-12,500 | 15 | | | | |
| | | | 12,501-62,500 | 20 | | | | |
| | | | 62,501-125,000 | 35 | | | | |
| | | | | | | | | |

‡ REMEDIATION NOTES

- Costs: The licensee is responsible for the costs of resampling and retesting.
- Testing Requirements: Quality assurance testing on resampled batches or lots must include all of the analytes required for the product.
